**Get Acquainted
Meeting for Pre-
School Age Kiddies**

In order that children who will be entering school for the first time, in District 159 Mokena, may become better acquainted with the school, letters have been sent by Elizabeth Cappel principal, and Minnie L. Pester teacher of the beginner's class, to parents of the children. The letters contain an invitation to visit the school with their children Friday, May 1, at 1 p.m. for the purpose of meeting the teacher and their future classmates.

This meeting should help solve many problems confronting parents of beginning pupils and will answer some of the questions parents may have in mind. When the child has seen the school room and met the teacher much of the timidity and fear of going to school for the first time will be overcome and the children, instead of shrinking from the thought of going to school may actually look forward to it with pleasant anticipation.

Children must be six years old by December 1, 1953, to be eligible for next fall's school term.

The teachers are hoping to have the pleasure of meeting at the mothers Friday afternoon accompanied by their children who will be starting school next fall.

**Mokena Book Club
Contest Makes A
Lot of Readers**

The book contest conducted by the Mokena Book Club in its library closed Wednesday April 22nd. The contest was started to encourage reading among the children and was a great success. The children were enthusiastic over the contest and also over the books they read. The results were much better than the committee ever dreamed they would be.

The fourth grade in the Mokena public school, with an average of three books for each pupil, won by a small margin over the third grade. In St. Mary's school the third grade won with an average of 9 4-5 books per pupil.

The committee of the Book Club with Mrs. Swart and Mrs. Lehman in charge every Wednesday afternoon, worked very hard with Mrs. Lehman issuing 706 books and Mrs. Swart receiving reports on 672 books in the four afternoons the contest ran. Also on the committee were Mrs. J. Doyle and Mrs. J. Fassett. The closing day was especially gratifying to the committee, with over 100 books issued to the children even though they knew the contest was over. The children of Mokena have really become readers.

The report in full will be given to the Book Club at the next meeting May 8 in the home of Miss Flora Maute. Mrs. Philip G. Lenz will give a review on The Daughter of Bugle Ann by MacKinlay Kantor that night.

The Mokena Community Volunteer Fire Department will sponsor their annual dance and pinocchio tournament in the VFW hall on Wolf road in Mokena Saturday evening May 9. The affair will start at 8 o'clock.

The Mokena firemen give this dance and tournament one a year as a means to procure funds for the upkeep of their equipment, and as a reserve fund for any time that a new truck or equipment may be necessary.

Letters and tickets have been mailed to everyone in the area. The Mokena Fire department is incorporated under a charter from the state of Illinois and they are at liberty to go anywhere in their area for the purpose of fire protection. They are asking \$3 from each family—\$3 a year for protection of their homes and those of their neighbors. It is hard to believe that anyone would refuse to give this small amount, for it is really giving to oneself. It is the cheapest fire protection that is possible.

The firemen stand ready to answer the siren 24 hours a day and 365 days a year, and when that siren blows, no matter what the men are doing or where employed, they stop their work and rush, often at an employer's disadvantage, to help those in need. Every minute counts when a fire is in action. Now it is the turn of "we the people" to rush to the aid of our own firemen and help them to help us.

And in addition, those attending will have the pleasure of meeting and visiting with friends and neighbors and having fun by dancing, to a good orchestra and playing cards for those who wish.

Mark your calendar for Saturday, May 9 for an important event to attend.

The De Laval Combine Milker
AND REFRIGERATED FARM TANK
CUT COSTS...INCREASE PROFITS*

*The De Laval Combine Milker and refrigerated farm tank combine a single milk producing unit which provides a straight flow of milk from cow to pickup tanker—without handling.

Milking the greatest number of cows with the least amount of help... getting the milk from the farm to the milk plant at lowest cost and with minimum handling... producing higher quality milk and getting paid for all of it... cutting down the loss and waste of rejected milk—these and many other advantages are being enjoyed right now by dairymen using the De Laval Combine Milker with refrigerated farm tank.

This De Laval Combine Milking system is truly straight-line milk production with every bit of non-profitable walking, carrying, pouring, straining and can handling eliminated. Ask us for the full story today.

*At the milk plant the pickup tanker ties directly into the plant milk line and becomes, in effect, the holding tank and receiving room. The savings to both milk producer and processor are obvious.

ALPINE

Mrs. E. Mrosek
Orland 41-J-1

A group of people representing Orland, Palos and Lemont townships met April 26 in Lemont to discuss the school health nursing service problem. Mr. Robert G. Hayes, assistant to the Cook county superintendent of schools presided. It was generally felt that the logical and practical plan would be co-operative health service for grade and high schools in the areas that comprise the Orland-Palos high school district. Health records would then automatically follow a child from grade school to high school.

Much concern has been expressed throughout the county since the department of public health announced that it could no longer continue health service to public schools and that provision for such service would, in the future, have to be made locally. It is hoped that a plan agreeable to all can soon be worked out and be ready to go into effect by next fall.

There will be a board meeting of the Maue PTA in the home of Mrs. Chester Williams, president, Wednesday, May 6 at 8 p. m. Procedure for installation of officers will be discussed. Plans for the school picnic will be made. Tentative plans are for a weiner roast at Messenger woods with a ball game and other games planned for entertainment.

Little Miss Rosemary Bukowski celebrated her fifth birthday a week ago Sunday. Relatives from Chicago helped make the day a happy one.

Miss Charlotte Albert has returned after a two weeks vacation. She reports having had a very pleasant time. She went by train to Mendon, Mo., where she joined a friend, Mrs. Pat Thomas. From there the two girls traveled by car to Columbus, Ga., where Mrs. Thomas' husband is stationed. Rock City with its cable cars was one of the interesting places they visited. Charlotte returned by train.

The younger John (Sonny) Coles worked themselves and their neighbors into pretty much of a dither when they returned home one night last week to find their dog, Midge, had disappeared. Their pet was found under a

crib in the back yard with a nice new family of babies.

Mrs. Stuart Culp has been ill this past week with a cold. She is improving. Colds of unusual severity seem to be striking at many in this area lately.

Infant Iona Rush, who has been very ill, seems to show more improvement. She has been suffering from a condition of the mouth. It is said that many babies are similarly afflicted at this time.

In celebration of her birthday, Mr. and Mrs. William Felsch were guests of their son and family, Mr. and Mrs. Henry Felsch Sunday evening.

Mr. and Mrs. Garrett Cummins visited with former neighbors, Mr. and Mrs. James Hughes, in Chicago Sunday.

Mr. and Mrs. Owen Maue entertained Mr. and Mrs. Russell Lauffer and children, Charles, Alma and Jean, in their home Friday evening.

Dr. and Mrs. Ernest McMahon were supper guests of Mr. and Mrs. Arthur E. Maue Sunday evening.

Mr. and Mrs. Owen Maue and

family were supper guests of Mr. and Mrs. Everett Holm at Goodings Grove Sunday.

The date for the Alpine girls 4H picnic is tentatively set for May 16.

Mr. and Mrs. Owen Maue and a group of friends attended the play "Street Scene" in Chicago Heights Sunday night.

Mr. and Mrs. Charles Henning celebrated their 5th wedding anniversary with an evening of dinner and dancing in Chicago Saturday night.

The Freeman Fellowship of the Marley church met with the Harwood Stellwagens for a pot luck supper Sunday night in honor of Mr. and Mrs. Homer Sabin and children, Paul and Linda, of West Collingswood, New Jersey. The Sabins were formerly of this district and are back for a visit. They were members of the Freeman Fellowship.

Edward Lee Mrosek is down with the measles.

It is reported that the mother-in-law of Mrs. Lemke, Maue's principal, passed away Monday

morning April 27. The funeral will be held this afternoon April 30 in Chicago. Mrs. Lois Shewski of Mokena is substituting for Mrs. Lemke this week.

C. F. Colcord who spent the winter in Arizona, returned home last Tuesday. Enroute back he spent several days at Salem, Ill.

New Book, 'Ford At Fifty' Tells Whole Story of Ford Co.

A story of a great industry and its future—an industry which directly or indirectly provides Americans with one out of every seven jobs in the country—has been told in words and pictures in a new book "Ford at Fifty."

The book is published by Simon and Schuster as part of Ford Motor company's fiftieth anniversary observance. It is a portrait of the automobile industry, the people who make it work, and its effect on Amer-

ica, told in terms of one company in the industry.

Featured also is a case history of the automobile's effect on the growth, development and living habits of an American community.

A foreword by Henry Ford II dedicates the book as "a tribute to America."

"The growth and achievements of Ford Motor company have been made possible by the kind of America in which we live," Mr. Ford's introductory note states.

"While this is a portrait of an American industrial enterprise taken in its fiftieth year, it is also a look at America and people at work."

The Ford anniversary story was produced editorially by Picture Press, Inc. of New York City. The staff was headed by Joseph J. Thorndike, Jr., former managing editor of Life magazine, and the text was written by Joe McCarthy, managing editor of Yank, the Army weekly during World War II, and now a writer for leading mag-

azines, including Life and the Saturday Evening Post.

The story opens with a camera and text study of the automobile's effect since 1903 on a typical American town. Photographers and researchers screened more than 100 cities before selecting Sacramento, Cal., for the case history.

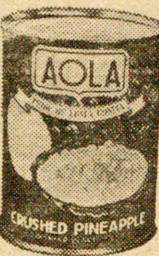

The Sacramento chapter describes "an American Revolution" which has brought that city one automobile for every 1.6 residents, created curb service at restaurants, banks, libraries and the post office, and has broadened trade areas for local merchants. Old-time pictures recall muddy city streets and country roads of 1900, and contrast them with today's packed parking lots at factories, or week end trips to the Sierras for skiing.

Then the book turns to Henry Ford—"a man and an idea." The origin and growth of Mr. Ford's automobile manufacturing system is compactly told in picture and anecdote. The section opens with a Norman Rockwell painting showing Mr. Ford at work on his first car.

Lunch at the White House—Recently after two invitations and two "rain checks," the writer finally had lunch at the White House. He was one of twenty congressional guests—10 Republicans and ten Democrats.

This is a great country. A few months after a very hotly contested election, opposing candidates sit around a table and break bread together. In Russia the losers would have been shot. Here we accept the decision of the people and take it in a spirit of friendly rivalry.

The President sat in the center on one side of a long table and your congressman sat immediately across, facing him. The luncheon was held in what is called "The State Dining Room," a room about fifty feet long and thirty feet wide. Ten people were seated on each side of the table with two at each end. The menu consisted of pea soup, baked ham, a stuffed tomatoe, asparagus, green salad rolls, cherry pie, coffee, and nuts. Those who smoked were given cigars or cigarettes, and those who didn't smoke got smoke. (Ike doesn't smoke.)

The President proved to be a very friendly host, pleasant, informal and homey. He entertained by telling one anecdote after another, all based upon his experiences.

The lunch hour was filled with good natured banter. After lunch the President personally conducted us through The White

House—explaining the use of the various rooms, furnishings and renovations—as expertly as an experienced guide. One of the guests humorously suggested to Ike that when his four years were up, he would be able to earn a good living as a professional guide.

Several times the President referred to Mrs. Eisenhower as "Mrs. Ike" and "Mamie." "Mrs. Ike" waved very informally at the President and the group as we passed by her door.

Only a very great man when elevated to the Presidency could be as natural, as modest, as friendly, but yet with dignity, as Ike does. The President and "The First Lady" are friendly, gracious, hospitable people—a credit to this nation as occupants of The White House.

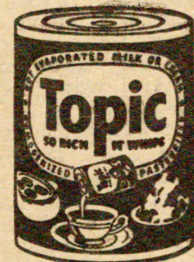

For the first time in twenty years, Republican Congressmen have the responsibility for recommending appointments to postmasterships within their respective Districts. Due, however, to New Deal legislation this does not involve an extensive

activity because a change of administration does not now mean a change in postmasterships. Under a law enacted 1938, all postmasters were placed under civil service and given permanent appointments. In consequence post office vacancies now occur only through resignation, retirement, death, or removal from office for malfeasance.

When a vacancy does occur the Post Office department asks the Congressman from the district to recommend a temporary or acting postmaster. An examination is set up by the Civil Service commission for applicants for the permanent appointment. The examinations are graded and an eligible list of the top three is submitted to the Congressman who recommends one as permanent appointee. This nomination is then submitted to the Senate for approval.

NINA MARSHALL
(Continued from front page)

than 225 guests attended a reception in the church parlors. The brides table was spread with a white linen cloth and white satin ribbons and centered with a four tiered wedding cake, spring flowers, and candles. Miss Mary Loretta Carter presided at the punch bowl, Miss Nancy Hodges, at the coffee urn, and Miss Joan Kern served the wedding cake. Mrs. Rolland Cagwin, Jr. had charge of the guest book.

For her wedding trip the new Mrs. Shoop chose a pale blue poodlecloth dressmaker suit with matching accessories.

Upon their return from a two week's motor trip to Washington D. C., the couple will be at home in their apartment at 720 West 72nd street in Chicago where the bride is employed at the Hamilton Park branch of the Rock Island offices. The groom is employed as a commercial artist in Feldcamp and Malloy, advertising firm. Both are graduates of Joliet Township high school.

Out of town guests at the wedding were present from Mansfield, Ohio, Rochelle, Aurora, Berwyn, Lockport, Mokena and Joliet.

Readers Viewpoint

To the Editor and Fellow Subscribers:

As a non-resident I believe I ought first to justify my deep interest in Mokena and its people and problems. It is my home town, and as soon as business and family matters make it possible for me to return it will again be my home.

Since leaving Mokena I've lived in several large cities and I've witnessed the corruptness of their city governments and have felt glad that I was raised where people didn't have that wrong.

Their only feeling of dread on election day was that they were going to have to choose between two old friends or possibly they had only to vote for the one name on each ballot for each office.

Because of having carried this feeling for so long it's been very disheartening to hear and read what's been going on recently in the village election.

I received a copy of the second letter sent out by the group sponsoring the write-in campaign, and had heard in detail what the first one contained.

I know all of the people whose names were suggested and I have a deep conviction which I know is shared by many of you. It is that these people were anything but desirous of having their names put to such a use. I believe this "hate campaign" was sponsored by the very same people who moved to Mokena and began stirring up trouble before I moved away.

I thought surely they'd have realized that even a "little pond" doesn't want to be dominated by "frogs" of their caliber. Corruption in the big cities is commonplace and all I can think of that these schemers weren't good enough even at that to make the big leagues.

If they had sincerely had the real interests of the village and the people at heart they wouldn't have had to stoop to such an underhanded way of doing things. No matter how they've tried to explain it away that sort of thing can never be justified.

If these people weren't so thoroughly disliked and distrusted they could have backed men in whom they had trusted and whom they openly instead of using names without having the people's consent to what they were doing, and sending out anonymous letters.

I sincerely believe this was a hate campaign, carried on only to disunite the village. Since I've heard of what some of the deeds are that they've carried on since the election I'm even more

thoroughly disgusted. Would any one have believed that adult who lost an election would be childish enough to stoop to playing petty nuisances on a long time resident who was interested enough in the future of Mokena to help thwart their scheme?

All I can add in closing is that I hope they have moved over to more "fertile fields" by the time I move my family there.

Sincerely,
A Former and Future Mokenean

Meet To Plan Fund Raising Campaign For Educational TV

W. F. Fierke, of Tinley Park, superintendent of schools of the Community Consolidated School District 146 was among those present at a meeting at the Commonwealth Edison company's auditorium in Chicago, to formulate plans for a fund-raising campaign to assure the Chicago area of educational television. An enthusiastic response greeted the leaders of the campaign as they told of the steps taken to meet the \$800,000 goal set to insure proper establishment of educational television.

Mr. Fierke says there will be a meeting on this subject in Tinley Park May 4, in the school auditorium, starting at 8 pm. This meeting will be open to all interested persons, in Tinley Park or elsewhere. It is hoped there will be a good attendance.

Mokena Youth Fined \$75, Costs, For Disorderly Conduct

Late last Friday afternoon Warren Nelson, of Mokena, who drives a 1949 black Ford sedan, turned the corner on Midland street and went east or Carpenter street it is claimed at 40 to 45 miles an hour.

Residents on the street, witnessing the speed of the car immediately went to Judge Balaz in the village hall, made a complaint, signed a warrant for Nelson's arrest. Police Chief Whitney Carter served the warrant and trial was held that evening in the village hall before Judge Balaz. Nelson was fined \$75 and costs for disorderly conduct and paid both fine and cost charges at the same time.

New Phone Rate Means Increase Of Penny a Day

Most residence telephone users in Frankfort, Mokena and New Lenox will pay about a penny a day more for service as a result of the Illinois Commerce Commission's order increasing Illinois Bell's revenue according to Mr. R. F. McQueen manager at Joliet. The order trimmed 25 cents from the amount asked by the company for monthly charges for residence service.

655 four-party residence customers will pay 25 cents a month more than the present rate; 24 two-party residence customers will pay 35 cents a month more, and the 177 one-party residence customers 50 cents more. The price of one-party business service will go up \$2.00 a month and the two-party business rate will be increased \$1.50 a month.

For those customers with metropolitan service, the rate for each message unit will go up one-fourth of a cent.

The changes become effective April 16 according to Mr. McQueen. The new monthly increases here, he said, will be as follows:

Residence Service	Increase
1-party	50 cents
2-party	35 cents
4-party	25 cents
Rural	35 cents

Following is the statement by W. V. Kahler, president of Illinois Bell Telephone Co. on Illinois Commerce Commission order of April 15, establishing a new schedule of rates:

"It has taken 27 months litigation to establish that our need for higher rates first announced in 1951 was a just cause."

"While we believe in public regulation, such a prolonged delay is unfair to all parties concerned, investors, employees and customers; short term planning based on financial uncertainty is a sure route to poor telephone service."

"The Commission's order reducing our filed schedule of rates is extremely disappointing. A telephone system is built primarily with poles, copper lead, and, above all, labor—and all of these costs are up since we last adjusted our prices. General wage increases and related costs alone have added over \$24,000,000 a year."

"The Commission's order makes the new rates effective April 16. The increase in rates amounts to a little over one cent a day for most home phones. Bills dated April 16 and thereafter will reflect the new schedules."

"In the meantime, we are studying the Commission's order to determine our future action. We hope that further long and costly litigation will not be necessary."

The CAC are asking everyone who has saleable articles which they are willing to donate for the auction for the benefit of the church organ, to have them ready for the event which will take place the evening of May 23. The exact place will be announced later. Articles for which transportation is needed, should be reported to Tel. 875-M, Lockport by May 20.

A visiting clergyman from Chicago university will preach next Sunday, at the regular morning service. Rev. Girl Scout Troop 100 and 103

It was gratifying to the leaders and committee women of these troops to have so many mothers attend the meeting Tuesday afternoon at the Ann Rutledge school. We are going to try to get uniforms for everyone. Activities for the summer and the Scout program was discussed and explained. The regular Scout meeting was held Wednesday, at which time questionnaires about camping were filled out. The girls worked on a Mother's Day project. Final plans were made for a hike. The troop, accompanied by Mesdames Carter, Kluth, Bradley, Studnicki and Kaehler drove to New Lenox, where they met Mrs. Rowe, who conducted them on a hike and pointed out various trees, wild flowers and herbs. The leaders and Girl Scouts appreciated Mrs. Rowe's instructions and help. Everyone arrived home happy and ready to make plans for another hike soon.—Pub. D.

BABSON SAYS—Copyright, 1953, Publishers
Financial Bureau, Inc.

Babson Park, Mass., April 30. I can give many economic reasons why taxes should not be cut until the federal budget is balanced; but here is why taxes should be cut if possible. In 1940, an average married couple with no children and a net income of \$5,000 on their federal income tax return (after real estate taxes, charities, interest etc) had over \$4,800 left for themselves. Today, after taxes, a similar couple with a \$5,000 net income has only \$4,150 left. This perhaps wouldn't be so bad were it not for the fact that their \$4,150 buys them only \$2,160 worth of goods.

Higher Taxes and Higher Prices—New Deal tax policies, to be sure, seemingly did much to improve the dollar status of many workers. But executives earning over \$10,000 were really mowed down. Take the \$20,000 a year man as an example. In 1930-40 he had nearly \$18,500 left after taxes. In 1953 he has left only about \$14,500. You say you wouldn't mind having even the \$14,500! That may be true; but see how the \$20,000 a year man's standard of living has been lowered. Today his \$14,500 net buys him only about \$7,500 worth of 1939-40 goods!

This same principle applies to corporations. Business has been good for the last dozen years. It was made good by war. With war came the all-out effort to produce weapons. There were few civilian goods, so workers had little to buy. Dollars piled up. When a big supply of dollars started chasing a little supply of goods, trouble began. Prices automatically went up. With increased prices came demands for increased wages to meet the increased prices. And this resulted in increased taxes. As wages and taxes rose higher, employers added wage and tax costs on to production costs. This kind of spiraling has gone on spiraling until prices today are nearly twice as high as they were in 1939-40.

The need for a 100c Dollar—Where this sort of thing allowed to continue, our nation could end up in bankruptcy. One of the best examples of postwar inflation is little Greece. In 1940 about 150 drachmas were equal to one of our dollars; today the official rate is 15,000 to the dollar. How would you like a life insurance policy or a pension plan in Greece today? It could happen here, too!

That \$3,000 a year retirement policy you were building in 1940, and on which you were planning to retire in 1960, will buy little more than \$1,500 of rent and food and clothes today. Congress made its big mistake after the war when there was a shortage of goods and pent up buying power. Right then and there the government should have pared its spending to the bone. Instead, we continued to spend, and in so doing built up further demand for civilian goods. Hence, things got badly out of control.

The Budget Should Be Balanced—Truman's 1953-54 budget called for a \$79 billion expenditure. That's \$10 billion more than the government will take in, even at the present high tax rate. To balance the budget, \$10 billion will have to be lopped off somewhere. This could very well come by reducing government pay rolls, tightening up a loosely run Veterans' Administration, and stopping the pointless moving of military personnel from one side of the globe to another, then right back again!

Readers, however, must remember that any public economy program means firing a lot of people and perhaps starting the unemployment cycle. Congressmen may resist such economies. They don't like to see their constituents lose their jobs in either government or industry. Therefore, my present guess is that high taxes will continue. If so, we can meet them only by producing more, working harder, and being more sympathetic with our employers who are suffering from Double taxation.

'Prison Sunday' Observed By Salvation Army

The Salvation Army, now in its seventy-first year of prison work, observed Prison Sunday April 26.

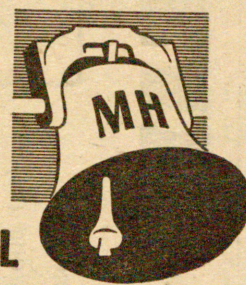

On that day Salvation Army officers and soldiers visited 292 city and county jails, state and federal prisons, reformatories training schools, and prison farms in the 11 north central states comprising the Army's Central Territory, according to Lt. Colonel Anton Cedervall, prison secretary for the territory.

In the Chicago area, inmates of 13 penal institutions participated in special service conducted by The Salvation Army. Included were the Cook County jail in Chicago, the Old Prison at Joliet, city and county jails in Aurora, Elgin and Waukegan;

the Boys' Training school at St. Charles, and the city jails of Crown Point, East Chicago Gary and Hammond.

The Salvation Army is recognized as a semi-official adjunct of the penal system and works with prisoners throughout the year. In addition to rehabilitation of the prisoners, The Salvation Army extends help for the needy families at home. When a prisoner has served his sentence, The Salvation Army offers help with a job, clothes, tools and the opportunity to take a productive and responsible place in society again.

Colonel Cedervall reported 62 persons were paroled directly in the care of Salvation Army prison workers in the Chicago area last year.
